PURPLE PASSION FRUIT

Passiflora edulis f. edulis

GRANADILLA

Passiflora ligularis

FEATURES

It is a rounded oval fruit with bright orange skin. The skin is tough and inedible, but it is easy to cut. The fruit contains a gelatinous pulp with edible black seeds. The taste of its pulp is sweet.

Brix degrees: 10.9%.

Shelf life: 17 days.

PACKAGING

Corrugated box

Net weight: between 2kg and 20 kg.

SIZE	WEIGHT
22	80gr - 90gr
20	91gr - 100gr
18	101gr - 111gr
16	112gr - 125gr
14	126gr - 142gr

FEATURES

The passion fruit is an aromatic fruit that has a hard, smooth shell, which becomes rough when ripe. The shape of this fruit is round or oval, and inside it is full of viscous yellow pulp, with many small black seeds. Its flavor is sweet and slightly acid.

It is a fruit rich in Vitamin A and Vitamin C, which, thanks to its antioxidant properties, prevents aging, protects against sun damage and strengthens the immune system. It contains a high amount of fiber that improves intestinal transit and reduces the risk of suffering from gastrointestinal diseases.

Brix degrees: 13%".

Shelf life: 9 days.

PACKAGING

Corrugated box

Net weight: 5kg, 10kg, 15kg.

FIG

Ficus carica

FEATURES

The fig is considered a false fruit, it is a receptacle that contains hundreds of small fruits that we commonly call pips. It is used as a fruit for consumption fresh, dried, as a puree for confectioneries, canned or candied.

Raw, dried fig is highly nutritious and a rich source of dietary fiber, potassium, protein, minerals (iron, phosphorus, magnesium, copper, and zinc), and vitamins (riboflavin and vitamin B6).

PACKAGING

Corrugated or plastic boxes
Net weight: 4kg

Figs are usually 6 to 7 cm long and 4.5 to 5.5 cm in diameter

FEATURES

It is a fruit covered with a very hard skin. Only the interior is consumed, which is shaped like white segments (as if they were garlic cloves). Its flavor is delicious. The mangosteen fruit has a characteristic, slightly acidic flavor and comprises a variety of vitamins and minerals.

Protects cardiovascular health, promotes glucose regulation. Gives vitality and energy, helps lose weight, strengthens the immune system, relieves respiratory problems. Reduces anxiety and depression, due to its tryptophan content. Reduces chronic inflammation of the intestines and stomach.

Brix degrees: 19.3%

Shelf life: 25 days

MANGOSTINE

Garcinia mangostana

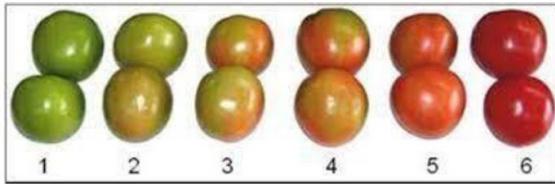

PACKAGING

Air: Open box 2 kg with alveolus
Maritime: Open box with stepac bag per 2 kg

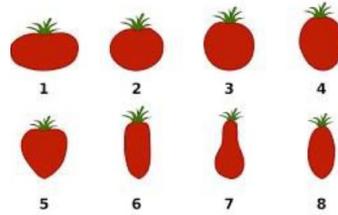

SIZE	WEIGHT

Solanum lycopersicum

EMPAQUE

Carton Box 39,50 x 34,00 x 19,00

Weight x box: 11,35 kg

Pallets per container: 20, boxes per pallet: 84,

total boxes per container: 1680

Temperature: between 6°C and 8°C"

CALIBER

Salad tomatoes must have a size between 180 and 250 grams.

TOMATO

Solanum lycopersicum

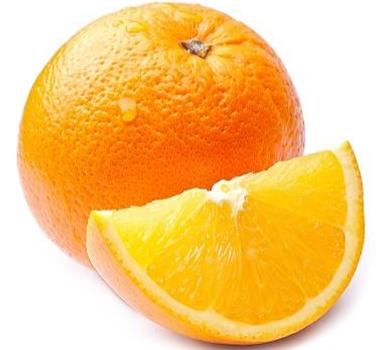

VALENCIA ORANGE

Citrus X sinensis

FEATURES

Valencia oranges have a high juice content, an excellent aroma and a slightly acid taste, which makes it the ideal variety for those who like citrus flavours. In addition to that acid touch, they contain very high levels of sugar, so their flavor is highly appreciated for preparing juices: acid and sweet at the same time. Its size is a little smaller than that of these, that is, they are medium in size and round in shape. Its bark is very orange and, although thin, sometimes somewhat rough.

PACKAGING

Corrugated box

Maximum capacity: 20kg

SIZE	DIAMETER (mm)
0	92-110
1	87-100

42	107-118
48	93-106
54	83-92
60	75-82
63	71-74

FEATURES

The harton plantain is a tropical fruit, elongated in shape that is produced in clusters. Raw it has a bitter taste and is very difficult to digest (due to its high starch content), which is why it is essentially consumed cooked in different ways, in which case it is not only digestible but also acquires a very delicious flavor and a soft and smooth consistency.

HARTON PLAINTAINS

Musa paradisiaca

FEATURES

Banana is a fruit that contains high levels of potassium, sucrose, fructose and glucose, nutrients that, when consumed regularly, provide our body with energy almost immediately. This fruit increases the metabolism making us have a good digestion and also maintains the levels of sugar in our blood, preventing us from less anxiety and overeating. Contains 34% vitamin B6, a recommended dose as an anti-inflammatory nutrient that helps reduce heart disease and premenstrual symptoms.

Shelf life: 45 days.
